Enable MongoDB's free cloud-based monitoring service, which will then receive and display
metrics about your deployment (disk utilization, CPU, operation statistics, etc).

The monitoring data will be available on a MongoDB website with a unique URL accessible to you
and anyone you share the URL with. MongoDB may use this information to make product
improvements and to suggest MongoDB products and deployment options to you.

To enable free monitoring, run the following command: db.enableFreeMonitoring()
To permanently disable this reminder, run the following command: db.disableFreeMonitoring()

Is there any official command line (switches) reference for the different versions of Adobe (formerly Acrobat) Reader? I didn't find anything on Adobe Developer.. This needs to happen fast because the tiles on the grid will cool down if they remain unused.. The player constantly has to maintain the temperature Once the grid is completely frozen, it's game over.. Description Word Craft is a word-building game, similar to the The player has to create words of 3 letters or more by clicking on the appropriate letters in the right order.. There are also many bonus tiles in the game One of them is the icebreaker tile which warms up frozen tiles.

Each created word is replaced by hot tiles, which are worth more points and take longer to cool down.
